

AXIS MUNDI QUINTET STAGE PLOT

* Please provide four (4) music stands

MONITOR MIXES:

We need two (2) monitor mixes:

- Violin
- General band *with plenty of bass and vocal added*

MIC LIST:

Violin: XLR - Direct out (he likes to use his violin mic straight into the board if the monitors are good). He has an AER amp like mine with an XLR - Direct out.

Percussion: Three (3) mics:

- 1 between congas,
- 1 on left that's moveable for bongos, dombeck, etc,
- 1 overhead on right for shakers and hangy things.

Guitar: The guitar is stereo if possible using a mic in front for the Fender Twin and XLR - direct from my 2nd amp (AER). Otherwise mono works as well.

Bass: Bass amp can be run amp XLR - Direct out or however you want to do it.

Drums: Three (3) mics

Vocal: One (1) mic

First row stage left to right:

- Percussion, guitar, violin.
- Second row center stage drums
- Bass on center stage left.
